

*Courses for Physicians &  
Allied Health Professionals*

**UM 2011 CME 2012 UM**

*continuing medical education*

**University of Michigan  
Kellogg Eye Center**

Dear Colleagues:

We are pleased to present this year's calendar of Continuing Medical Education programs. These courses and conferences are designed to share new clinical concepts and techniques that will help your patients and enhance your practice. A variety of programs are offered to meet the needs of comprehensive ophthalmologists,

subspecialists, ophthalmic nurses and ophthalmic technicians.

You can expect the following from our upcoming CME programs:

- Tips for avoiding common complications
- Information you can use in your practice immediately
- Newest strategies and technologies
- Clinically-relevant material
- Presenters you know and trust

Our CME programs are led by some of the leading clinicians in our field and each event allows ample time for you to discuss challenging cases with colleagues and course faculty. Attending these programs will also satisfy your accreditation requirements.

Please take a moment to review our upcoming programs and select a few that best serve your practice. I look forward to seeing you at one or more of our programs this year.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul R. Lichter". The signature is fluid and cursive, written in a professional style.

Paul R. Lichter, M.D.

F. Bruce Fralick Professor of Ophthalmology

Chair, Department of Ophthalmology and Visual Sciences

Director, University of Michigan Kellogg Eye Center

# VISITING PROFESSOR GRAND ROUNDS

Our series of subspecialty programs features the best speakers in their fields from across the U.S. Each of these accomplished subspecialists will explore interesting cases and provide practical information on the newest methods of diagnosis and treatment, with concrete advice on dealing with complications.

Ophthalmologists, faculty, fellows, residents, technicians and medical students are welcome to attend these popular sessions.

Registration and continental breakfast begin at 7:00 a.m.

*Application will be submitted for 1.50 AMA PRA Category 1 continuing medical education credits.*

**Neuro-Ophthalmology**  
**Saturday, November 12, 2011**  
**9:00 a.m. – 11:00 a.m.**

*Marie D. Acierno, M.D.*  
*Professor of Clinical Ophthalmology*  
*Residency Director,*  
*New Orleans Program*  
Louisiana State University School  
of Medicine in New Orleans

**Pediatric Ophthalmology**  
**Thursday, March 1, 2012**  
**7:15 a.m. – 8:30 a.m.**

*R. Michael Siatkowski, M.D.*  
*James P. Luton Professor of*  
*Ophthalmology*  
*Vice Chair for Academic Affairs*  
*Residency Program Director*  
Dean McGee Eye Institute

**Retina and Uveitis**  
**Thursday, February 2, 2012**  
**7:15 a.m. – 8:30 a.m.**

*Ronald P. Danis, M.D.*  
*Professor, Department of*  
*Ophthalmology and Visual Sciences*  
*Director, University of Wisconsin*  
*Fundus Photograph Reading Center*  
University of Wisconsin School of  
Medicine and Public Health

**Orbital and Ocular Oncology**  
**Thursday, April 12, 2012**  
**7:15 a.m. – 8:30 a.m.**

*Jerry A. Shields, M.D.*  
*Director, Ocular Oncology Service*  
Wills Eye Hospital  
  
*Carol L. Shields, M.D.*  
*Associate Director,*  
*Ocular Oncology Service*  
Wills Eye Hospital

# ANNUAL CONFERENCES

**Saturday, January 21, 2012**  
**Mid-Winter Oculoplastics Symposium**  
**8:00 a.m. – 1:00 p.m.**

Elizabeth A. Bradley, M.D. and Edward Deneke, M.D., will join members of the Kellogg Eye Plastics, Orbital, and Facial Cosmetic Surgery Service to present tips for managing common oculoplastic problems and the latest advances in a variety of surgical techniques. The program is designed for ophthalmologists, subspecialists, residents and fellows.

**Kellogg Eye Center Speakers:**

*Raymond S. Douglas, M.D., Ph.D.*

*Victor M. Elnor, M.D., Ph.D.*

*Alon Kahana, M.D., Ph.D.*

*Christine C. Nelson, M.D.*

*Terry J. Smith, M.D.*

*Application will be submitted for 5.0 AMA PRA Category 1 continuing medical education credits.*

**June 1–2, 2012**  
**84th Annual Spring Postgraduate Conference**  
**Pediatric Ophthalmology and Neuro-Ophthalmology**  
**8:00 a.m. – 5:00 p.m.**

One of the longest-running ophthalmology conferences in the country, our annual Spring Conference provides you with the most up-to-date and proven advice there is for treating your patients. Noted speakers from around the country will share their tips on surgical techniques and latest medical treatments. Panels of experts will answer your specific questions and discuss your most complex and thorny cases. From diagnosis to medical and surgical treatment of the spectrum of ophthalmic disorders and complications, this conference is known around the country for providing the kind of information that you will take home to use immediately in your practice.

*Application will be submitted for 10.5 AMA PRA Category 1 continuing medical education credits.*

# REGIONAL UPDATE CONFERENCES

Each year, Kellogg subspecialists travel to various locations within Michigan to present a Saturday morning program for ophthalmologists in the area. The programs feature updates in specific ophthalmology subspecialties. The objective is to present practical clinical information in an informal and convenient setting and to provide the opportunity for dialogue.

*Application will be submitted for 2.5 AMA PRA Category 1 continuing medical education credits.*

**Saturday, October 1, 2011**

**Kalamazoo Regional Update Conference**

**9:00 a.m. – noon**

Radisson Plaza Hotel at Kalamazoo Center  
Kalamazoo, Michigan

*Thomas W. Gardner, M.D., M.S.  
Christopher T. Hood, M.D.*

*Sudha Nallasamy, M.D.  
Jonathan D. Trobe, M.D.*

**Saturday, March 10, 2012**

**Tri-City Regional Update Conference**

**9:00 a.m. – noon**

The Conference Center at Apple Mountain  
Freeland, Michigan

*Raymond S. Douglas, M.D., Ph.D.  
Hilary M. Grabe, M.D.*

*K. Thiran Jayasundera, M.D.  
Sayoko E. Moroi, M.D., Ph.D.*

*We also welcome allied health technicians to both our Kalamazoo and Tri-City Conferences for a separate course, same day, same time, same place. Allied health professionals are vital to the provision of world class eye care and have continuing education needs which stem from the constantly evolving state of technology and practice in ophthalmic care. We invite your allied health professionals to attend these courses, led by experienced faculty.*

# ALLIED HEALTH COURSES

Our Allied Health program provides ophthalmic technicians with the specific information they need to keep up with advances in technology and ophthalmic practice. These courses also provide an excellent means of satisfying professional certification requirements. Led by Kellogg's faculty and staff, our courses are recognized for excellence in content and practical, hands-on learning.

*These courses are not sponsored by JCAHPO; they are only reviewed for compliance with JCAHPO standards and criteria and awarded continuing education credit accordingly; therefore, JCAHPO cannot predict the effectiveness of the program or assure its quality in substance and presentation.*

*Application will be submitted for 3.0 Group A JCAHPO continuing education credits.*

**Friday, October 7, 2011**

**1:00 p.m. – 4:15 p.m.**

## **Uveitis and Its Sequelae**

Uveitis is a debilitating condition that can damage ocular structures in the front and back of the eye. This conference will provide an overview of the different ocular manifestations of uveitis, the various conditions that cause uveitis and laboratory testing that can be performed to identify these conditions, as well as how to evaluate and treat patients with different forms of uveitis. In addition, there will be presentations covering common sequelae of uveitis including cataract and uveitic glaucoma.

*Susan G. Elner, M.D.*

*Anna C. Momont, M.D.*

*Reecha Sachdeva, M.D.*

*Joshua P. Vrabc, M.D.*

*Maria A. Woodward, M.D.*

**Saturday, November 12, 2011**

**8:00 a.m. – 12:15 p.m.**

## **Pediatric Ophthalmology Potpourri**

There are a number of ocular conditions that are unique to children or have distinctions from the same condition in adults. A pediatric ophthalmologist will discuss common ocular problems presenting to a pediatric ophthalmology office. Additionally, pediatric ophthalmologists will discuss the vision-threatening conditions of retinoblastoma, pediatric cataracts, and retinopathy of prematurity, as well as the treatment options for these conditions.

*Steven M. Archer, M.D.*

*Monte A. Del Monte, M.D.*

*Christopher Gappy, M.D.*

*Sudha Nallasamy, M.D.*

# ALLIED HEALTH COURSES

**Friday, February 3, 2012**

**1:00 p.m. – 4:15 p.m.**

## **Intraocular Lenses: Options, Biometry, and Calculations**

This course will review the different types of intraocular lenses that are commercially available for cataract surgery and discuss the different factors to consider when choosing a proper lens to implant. Included is a hands-on review of A-scan biometry techniques (applanation and immersion), which are used to obtain accurate axial length measurements for choosing lens implants.

*Jill E. Bixler, M.D.*

*Beth K. Hansemann, COT*

*Ariane D. Kaplan, M.D.*

*Michael W. Smith-Wheelock, M.D.*

*Michelle A. Tehranisa, COT*

*Therese M. VanHeck, COT*

*Mary N. Waldo, R.N.*

**Saturday, March 24, 2012**

**8:00 a.m. – 12:15 p.m.**

## **What's New in Age-Related Macular Degeneration?**

Age-related macular degeneration (AMD) is the most common condition causing visual impairment among elderly in the U.S. This course will provide an overview of evaluating dry and wet macular degeneration, distinguishing one form from another, reviewing the different diagnostic testing available to monitor AMD, and reviewing the medical and surgical treatment options for AMD.

*Grant M. Comer, M.D.*

*Thomas W. Gardner, M.D., M.S.*

*Mark W. Johnson, M.D.*

*Stephen J. Saxe, M.D.*

*David N. Zacks, M.D., Ph.D.*

**Saturday, April 14, 2012**

**8:00 a.m. – 12:15 p.m.**

## **Ocular Nutrition**

There is a great deal of interest in the role of appropriate nutrition and nutritional supplements in an individual's health. This course will discuss the role of good nutrition for general eye health and address appropriate diabetic nutrition. The role of nutritional supplements will be discussed in relation to glaucoma, dry eye syndrome, and macular degeneration. Medical marijuana in the treatment of glaucoma also will be discussed.

*Cagri G. Besirli, M.D., Ph.D.*

*Theresa M. Cooney, M.D.*

*Sayoko E. Moroi, M.D., Ph.D.*

*Sacha L. Uelman, RD, CDE*

*Adrienne L. West, M.D.*
